Subject: serious inquiry about your dedicated servers.

I was wondering what kind of price would i be looking at for a machine with the following specs.

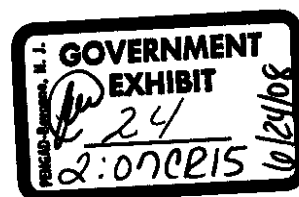

1ghz pentium or amd
512mb ram
120gb hard drive (or close to it) it can be split up into as many as 2 drives
100mbit/unmetered port

I also need windows 2003 installed.

If there would be a difference in price between unmetered and a 2500gb limit please quote me both prices. If you could offer me this for \$140 I would be seriously interested. My current dedicated has to be renewed by the 19th so i plan to make a decision within the next two days. Please get back with me ASAP if you can offer what I am looking for. Thanks.

Daniel Dove "Danny"
Crutchfield Technical

Ext. 4056

Dan,

we don't have any 1ghzamd/pentium processors available at the moment but i will see what we have laying around and get back to you later today, thank you for your interest in Fused Network.

Regards,
Scott H.
