[00:01:33] 11@neeksor : heh
 [00:01:49] 11@neeksor : cheating a pay 2 surf site will only cause it's demise.
 [00:01:57] 11@awox : Yep.
 [00:02:00] 11@awox : I wont have any part in it.
 [00:03:10] 11@awox : I'm thinking of getting all of Star Trek torrents and whacking them in BT.
 [00:03:39] 11@neeksor : neet.
 [00:03:45] 11@PrOphecy : huh ?
 [00:03:48] 11@neeksor : how is that hacking anyways
 [00:03:51] 11@neeksor : retards
 [00:04:09] 11@thurbs : how about bond torrents
 [00:04:15] 11@awox : neeksor: Some consider hacking many things, a lot of people would consider that hacking.
 [00:04:28] 11@awox : PrOphecy: Not very fast of course, maybe 200KB/sec.
 [00:04:34] 11@awox : Plenty of upload left for you. :P
 [00:04:53] 11@PrOphecy : lol
 [00:05:18] 11@PrOphecy : i meant i didnt understand .. do we have all the Star trek torrents going up anyway ?
 [00:05:46] 11@PrOphecy : (which i was about ready to start d/l'ing)
 [00:05:46] 11@awox : Yeah, Apparently eternalite is uploading all Star Trek episodes. :)
 [00:06:04] 11@thurbs : damn, howabout some leet one doing bond ;)
 [00:06:32] 11@awox : All bond movies in xvid/DivX would be nice. I recall seeing like a \$200 DVD box set of all the bond stuff, could go and rip it.
 [00:06:47] 11@awox : well, I'd actually have a friend rip it as I don't know much about ripping.
 [00:07:45] 11@thurbs : :)
 [00:08:07] 11@thurbs : that poll sucks
 [00:08:32] 11@neeksor : ehe
 [00:08:33] 11@neeksor : yeah
 [00:08:35] 11@neeksor : i got no love.
 [00:09:18] 11@awox : I'm not even on the list dammit. :P

[05:12:19] 11@duffman : Lacitpo_D

[05:12:23] 11@duffman : i had a msg on site

[05:12:24] 15Lacitpo_H : doesn't matter, I'm about to move to a new server anyways

[05:12:25] 11@PrOphecy : kk .. lemme toy with it a bit

[05:12:27] 11@duffman : from another user

[05:12:28] 11@duffman : ill paste it

[05:12:44] 11@duffman : From rasp911 at 2005-02-27 02:19:17 (6 hours ago) GMT

[05:12:44] 11@duffman : The harry potter Audio books(torrent 9780) has someone from a **aa sniff the peers. I had my internet cut off because I had the files for Chamber of Secrets and Goblet of Fire. I have since had the service restored, but you should think about pulling the torrent or removing those files from it.

[05:12:44] 11@duffman : rasp

[05:13:05] 15Lacitpo_H : weird, I run safepeer

[05:13:19] 15Lacitpo_H : I'll be running peerguardian once I get my new server

[05:13:24] 11@UGLArmy : it has what ?

[05:13:24] 15Lacitpo_H : my current server can't handle it

[05:13:28] 11@duffman : they emailed you tho

[05:13:34] 11@duffman : means your actual email is on your profile probably

[05:13:35] 11@duffman : so

[05:13:45] 15Lacitpo_H : no, they contacted servermatic

[05:13:49] 11@duffman : oh..

[05:13:49] 15Lacitpo_H : matrix*

[05:13:53] 15Lacitpo_H : and they contacted me

[05:14:03] 11@duffman : how long ago was that upped

[05:14:05] 11@win189 : would like something to uplaod

[05:14:11] 15Lacitpo_H : like 3-4 weeks ago

[05:14:14] 11@awox : That's why I only upload TV and XXX. I doubt they care much XXX, and there is lots of TV.

[05:14:20] 11@duffman : when was last time you connected in to it

[05:14:25] 11@awox : It would be great if we could upload ANONYMOUSLY if we wanted to, duffman.

[05:14:31] 15Lacitpo_H : hehe, I figured abooks would be totally under the radar

[05:14:38] 11@awox : PrOphecy: Try connecting without the socks proxy.

[05:14:44] 11@duffman : im just confused how they got your IP

[05:14:51] 11@duffman : unless you seeded longer then 24 hours

[05:14:53] 11@duffman : they couldnt have

[05:14:57] 11@awox : duffman: If they jumped on the torrent first, they could easily get his IP.

[05:15:12] 11@duffman : not without an account that can get past the 24 hour wait

[05:15:12] 15Lacitpo_H : I seeded forever, thats why, I figured abooks wouldn't attract attention

[05:15:23] 11@duffman : unless they are cheating... in which they would be breaking the law

[05:15:44] 11@Lacitpo_H : and now I won't too

[05:15:54] 11@duffman : not by downloading

[05:15:56] 11@awox : I seriously doubt that.

[05:16:16] 11@Lacitpo_H : now stephen king's going to get mad at me too

[05:16:24] 7@Lacitpo_H up's dark tower series

[05:16:24] 11@win189 : lol

[05:16:26] 11@duffman : you'll be in his next book

[05:16:27] 11@awox : But anyways, it's possible that there are moles in the ET userbase.

[05:16:47] 11@win189 : i can do some of the audio books lol

[05:19:40] 11@awox : Can anyone recommend a good FTP daemon for FreeBSD? Something
that supports lots of funky shit, also one that can run as non-superuser?
[05:19:45] 11@Lacitpo_H : then again, I'm an idiot
[05:19:45] 11@win189 : whell really an uploaders should only have to upload 500%

[05:19:55] 11@awox : I want something that has it's on authentication and

[05:20:15] 11@awox : win189: I rarely do that, I upload 300% on most things.

automatically be counted..
[05:22:25] 11@awox : I use OpenBSD's packet filter by the way, It's probably one
